

FRA2 Facility Specifications

Frankfurt, Germany

Wilhelm-Fay-Straße o. Nr. 65936 Frankfurt am Main Germany

MARKET SUMMARY

The Cyxtera Frankfurt data centers supports major international manufacturing, commerce and financial activity.

A growing ecosystem of providers are ready to link our Frankfurt data centers via low latency direct links to financial exchanges across Europe including an ICAP Access Point, which supports ultra-low latency direct access to key foreign exchanges and trading platforms.

DATA CENTER FACILITY SUMMARY

The Frankfurt FRA2 data center is housed in a three-story facility located within an established data center hub. The data center provides enterprises and finance institutions with scalable colocation solutions and access to leading cloud and managed service providers. The campus features complete redundancy, financial grade standard and incremental multi-tier security measures.

The facility is located 15 minutes from Frankfurt International Airport and 7 km from downtown Frankfurt. FRA2 is approximately 11 km from our smaller FRA1 facility.

MARKET BENEFITS

Over 2,000 square meters of raised floor with access to 5 MW of utility power

Connectivity to hundreds network service providers via carrier hotel within the same building

High availability deployment options include individual Secure Cabinets and dedicated Secure Cages. backed by 100% power uptime SLA

Compliance with SSAE18 SOC1, SOC 2, ISO 27001, and PCI DSS standards
