# SEATTLE DATA CENTERS

**3**

DATA CENTERS  
& POPs

**20+**

KW OF POWER  
PER RACK

BACKBONE  
CONNECTIONS TO  
**CHICAGO**  
& **SILICON VALLEY**

## FACILITIES

- Designed with Tier 3 compliant attributes
- Strategically located outside flood plain and seismic zones
- 24/7/365 NOC and onsite engineers with remote hands available
- Break rooms, meeting rooms and dedicated work areas available

## CONNECTIVITY

- Carrier-neutral connectivity to multiple providers
- Performance IP® mix for patented traffic route optimization
- Geographic redundancy

## SECURITY

- Key card access with secondary biometric authentication
- Video surveillance with a minimum of 90 days video retention
- 24/7/365 onsite personnel

## SPACE & POWER

- Over 101,500 square feet with 57,000 square feet of raised floor
- High-density configurations, including cages, cabinets and suites
- Fully integrated monitoring
- 5.5 MW power capacity
- N+1 with concurrent maintainability

## COOLING

- 2,400 tons of cooling capacity
- N+1 with concurrent maintainability
- Energy efficient cooling systems

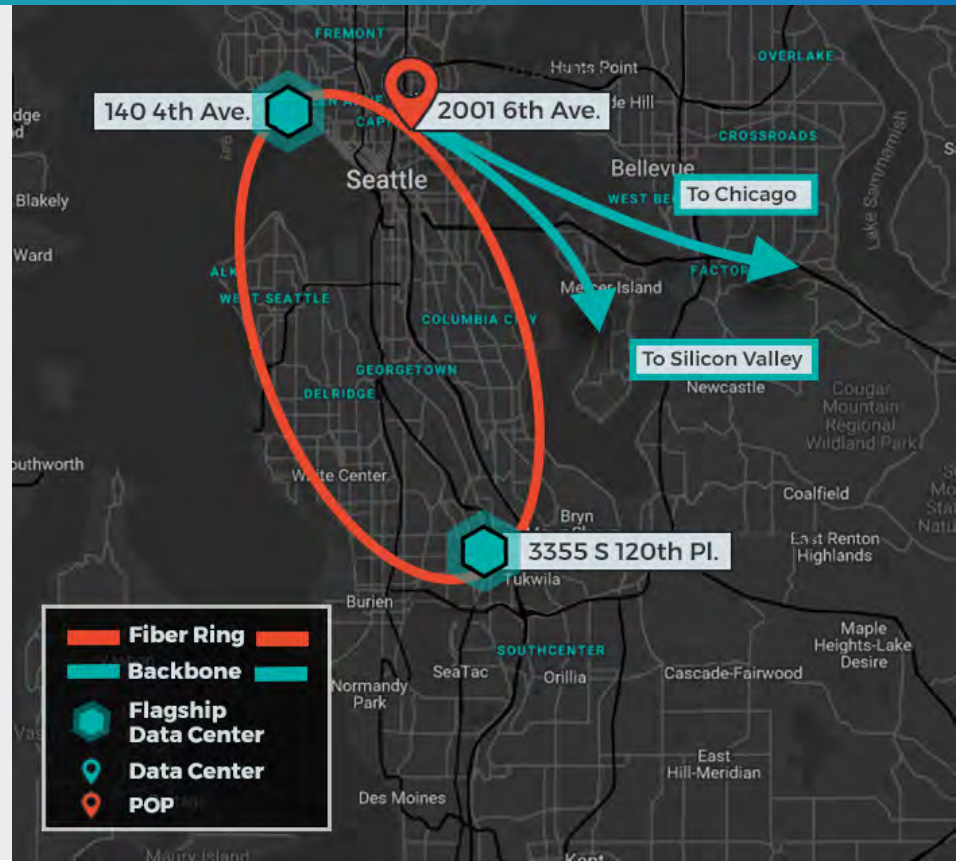

## COMPLIANCE

- Annual independent compliance audits
- PCI DSS, HIPAA, SOC 2 Type II, LEED, Green Globes and ENERGY STAR

## YOUR HOME FOR PERFORMANCE, SCALE & CONNECTIVITY

Expect more from your data center. Build with INAP. Our carrier-neutral, SOC 2 Type II facilities are concurrently maintainable, energy efficient and support high-power density environments of 20+ kW per rack.

The global footprint, which includes more than 600,000 square feet of leasable data center space, is woven together by our high-performance network backbone and route-optimization engine, ensuring your environment can connect everywhere, faster.

## THE INAP DIFFERENCE

### Superior Network

With INAP's robust global network presence, comprehensive Connectivity Solutions suite, and route-optimized, low-latency, Performance IP® service, we deliver the network performance your users demand.

### On-Site Engineers

Our expert support technicians are dedicated to keeping your infrastructure online, secure, and always operating at peak efficiency.

### Vast Product Portfolio

Our full-spectrum Data Center and Cloud solutions are customizable to support your business with an optimal mix of infrastructure environments.

### Application-Driven Solutions

We adopt a best-fit solution architecture philosophy, tailoring recommendations to the needs of your entire application list.
