

Data Center

POL - CHICAGO (POLK)

TierPoint helps your organization manage risk, drive performance and improve agility. Our state-of-the-art facility, located west of the Chicago Loop, is part of a nationwide network of data centers that share our commitment to:

1. Carrier Neutrality and Redundancy

By having many on-net carriers and by supporting cross connects to other carriers, you get access to the Internet bandwidth and connectivity services of your choice.

2. Security and Compliance

Equally important is a company-wide emphasis on security and compliance including the establishment of a national office to define and deploy best practices to serve client needs.

3. Responsiveness and Expertise

All of our data centers are supported by people who are passionate about client success, responsive to unique client requirements and who have the technical expertise and desire to help clients achieve their business goals.

DATA CENTER HIGHLIGHTS

- Less than a mile from Union Station
- Raised floor space is approximately 28,265 sq. ft. with build-to-suit options
- Complimentary off-street parking
- Connectivity to Lakeside Technology Center (350 Cermack)
- Connectivity to TierPoint's multitenant and private cloud environments
- Served by two electrical feeds from multiple sub-stations for greater resiliency
- Four (4) Powerware 500kVA, redundant N+1 configuration UPS
- 2.5MW generation capacity

The POL - Chicago (Polk) facility is audited under SSAE 18 SOC 2 Type II, PCI-DSS*, GLBA and HIPAA standards annually and are ITAR and EU-US Privacy Shield registered.

*PCI-DSS – Certification on PCI-DSS Requirement 9 & 12 (Physical Security and Information Security Policies) on data center (colocation) services. Colocation provides secure space, power, and environmental controls for merchants and service providers, some of which fall under PCI compliance. No logical access to any customer systems that may contain cardholder data.
